

"Midi-Break"

Packaged in a stainless steel cabinet

Pump Pressure / Flow Curves

Break Tank & Booster Set providing Fluid Category 5 backflow protection (model BTMIDI-1/2/3)

Applications -

- Healthcare (baths with shower hoses, clothes and dishwashing machines)
- Bidet washing
- Sinks with hoses
- Non-domestic Hose Union taps
- Vegetable washing

Ideal for installation in kitchens and bathrooms

The "Midi-Break" is designed to provide Fluid Category 5 backflow protection and to boost water pressure where inadequate.

- Integral type AB air gap
- Point of use backflow protection
- Wall mounted RAL7032 or stainless steel cabinet
- Compact - measures only 0.5hx0.4wx0.2d
- Easy to install
- Reversible inlet connection - left or right
- Continuously rated brass industrial pump
- Quiet - acoustically attenuated

The Break Tank & Booster is available in a stainless steel cabinet offering a neat and compact installation in kitchens and bathrooms where aesthetics are important.

Three models are available with differing flow characteristics; model Midi-1 is often specified for a shower, Midi-2 for a single tap and Midi-3 for washdown.

The unit is supplied as a complete package - factory tested, ready for wall mounting. Inlet AFL servicing valves supplied.

For higher flow rates and/or demand see "Boost-A-Break" model BTAB (see reverse)

"Pent-A-Boost"

Variable speed

Speed changes to meet demand – ideal for high and varying demand

Qualifies for Enhanced Capital Allowances (ECA)

Dual Pump

Variable speed
Duty Standby /
Duty Assist

Fixed speed

Illustrated with optional insulated jacket

Compact Domestic Booster Set

Designed to boost the supply pressure to penthouse suites and other tall buildings requiring individual booster sets.

Applications -

- Penthouse Suites
- Other tall buildings
- Low water pressure areas

Improves shower performance and provides sufficient pressure for combination boilers and other outlets.

- **Drinking water quality** – screened overflow G16.13
- **Range of duties** – up to 5 bar for 30 m high buildings
- **Quiet** – acoustically attenuated < 70dBa @ 1 m
- **Supplied as a complete package, factory tested**
- **Choice of fixed or variable speed pumps**

UK WATER REGULATIONS KIWA approved

Fixed speed

BTAF
Compact – measures
0.7h x 0.57w x 0.5d
Often fitted in
stairwell
